👤 Professional Summary

Software Engineer with expertise in backend development, AI/ML model deployment, and geospatial systems. Proficient in building scalable applications, data pipelines, and intelligent automation using Python, Django, and SQL. Having recently completed her Bachelor of Engineering in Computer Science with an 8.0 CGPA, she approaches complex technical challenges with both innovation and empathy. She is recognized nationally as a Fellow for the elite Samsung Fellowship and as a National Finalist for the Gandhi Fellowship, proving her dedication to systemic, high-impact change.

👜 Professional Experience

GIS Intern, India Space Lab 02/2026 – 03/2026 | Delhi, India

- Performed spatial, network, and site suitability analysis using QGIS and network road modeling.
- Managed GIS spatial databases by digitizing raster maps into vector layers and linking spatial/attribute data.

Data Analytics Job Simulation, Deloitte Australia (via Forage) 07/2025 – 07/2025

- Analyzed forensic datasets for actionable business insights and stakeholder transparency.
- Developed interactive Tableau dashboards for large-scale data visualization.

Software/ML Intern, Zidio Development 07/2024 – 10/2024
Bengaluru, Karnataka

- Architected a scalable Recommendation System with security enhancements.
- Developed Digit Recognition (HOG/Zernike) and real-time Speech Emotion Recognition systems.

AI Software Engineer, REXai 11/2023 – 03/2024

Optimized model scalability and backend logic for enterprise-grade AI solutions.

🎓 Education

Bachelor of Engineering in Computer Science & Engineering (Specialization in AI), Babu Banarasi Das University 2022 – 2026 | Lucknow, UP

- Cumulative GPA: 8.0/10
- Relevant Coursework: Machine Learning, NLP, Computer Vision, AI, Deep Learning, Generative AI, Data Structures & Algorithms (DSA), IoT, Operating Systems.

🧠 Technical Skills

AI, ML & GenAI
Large Language Models (LLMs), AI Agents, Neural Networks, Computer Vision, AutoML, Multi-Agent Protocol (MCP)

Programming & Backend
Python, Django, C, SQL, JavaScript, HTML5, CSS3, React

Data & GIS Tools
Tableau, Power BI, Pandas, NumPy, QGIS, OpenVSP, Time Series Forecasting, Geospatial Visualization

Tools & Cloud
GitHub, Azure, Google Cloud, VS Code, IoT Integration

Certifications

- AI Agents Intensive (Google/Kaggle)
- RS & GIS Applications (ISRO/IIRS)
- NLP/Deep Learning (Infosys)
- AI For India 2.0 (GUVI)

LEADERSHIP & RECOGNITION

Founder & Ex-Chairperson, IEEE Student Branch, BBDU

11/2024 – 04/2026 | Lucknow, India

Established the chapter from absolute inception, scaling active membership to 70+ engineering students and setting up collaborative project sprint frameworks and coordinating IDEATHON 2025.

Recipient, IEEE SPS UP Chapter Student Award 2024

Awarded top honors for exemplary technical leadership, community building, and scaling cross-functional project deployments within the Signal Processing Society branch.

KEY TECHNICAL PROJECTS

Smart Bin: Full Stack AI & IoT Platform

Automated waste segregation system (Arduino/Sensors) with an AI-driven web interface for management and community employment. Published: ADG 2025, IEEE.

Aircraft Modeling (OpenVSP)

Parametric 3D modeling of NASA-variant Cessna 210 using geometric parameter interpretation.
